

Adcock Ingram Critical Care and Olympus Partner to Expand Medical Innovation in Southern Africa

JOHANNESBURG, (Apr. 22, 2026) – Adcock Ingram Critical Care (AICC), a leading manufacturer and supplier of hospital and critical care products in Southern Africa, and Olympus, a global MedTech company committed to advancing endoscopy-enabled care, are strengthening their focus on improving patient care through a strategic partnership.

The partnership will expand access to Olympus' advanced endoscopy solutions and broader medical and surgical technologies across South Africa and the Southern African region. Through this collaboration, AICC will support healthcare professionals with innovative solutions and services for early detection, diagnosis and minimally invasive treatment, while also strengthening access to clinical support, training and education.

Ronald Boueri (Olympus) and
Colin Sheen (Adcock Ingram Critical Care)

Olympus has appointed Adcock Ingram Critical Care as its authorised distributor in South Africa, reinforcing its commitment to delivering high-quality products, reliable service and strong local support to healthcare professionals and institutions. With a global focus on clinical excellence and a comprehensive medical and surgical portfolio, Olympus continues to partner with organisations that share its aim of improving patient safety and outcomes and elevating the standard of care in targeted disease states.

"We are confident that our collaboration with Adcock Ingram Critical Care in South Africa will enhance service levels, expand market reach, and ensure seamless access to Olympus products and expertise," says Ronald Boueri, Vice President and Managing Director, Olympus Middle East and Africa. *"Most importantly, this partnership will support healthcare professionals with the high standards of quality, service and support they rely on, while contributing to improved patient outcomes and advancing healthcare across the country."*

For decades, AICC has delivered essential medical solutions across a range of therapeutic areas, including hospital care, renal care, transfusion therapies, infusion systems, and advanced wound care. This partnership further strengthens AICC's ability to connect global innovation with local healthcare needs, ensuring that all South Africans have access to critical, life-enhancing technologies, supported by strong clinical expertise and service.

"This partnership marks an important step forward in our ongoing commitment to improving access to quality healthcare across Southern Africa," says Colin Sheen, Managing Director of Adcock Ingram Critical Care. *"Through our collaboration with Olympus, we are equipping*

healthcare professionals with innovative solutions that support early detection, accurate diagnosis and minimally invasive treatment, helping to enhance clinical outcomes and strengthen healthcare delivery across the region.”

###

About Adcock Ingram

As a leading healthcare provider, the Company’s mission is to provide quality products that improve the health and lives of the people in the markets we serve. Adcock Ingram is a pharmaceutical manufacturer and supplier to both the private and public sectors in South Africa, founded in 1891, and listed on the Johannesburg Stock Exchange.
